

Static Master™

Family Code: 2WP

SKU	DIAMETER INCHES	MIN. BREAK STRENGTH LBS	WEIGHT PER 100FT LBS	NFPA
2WP-12	3/8"	5,897	4.6	Technical
2WP-14	7/16"	7,047	5.7	Technical
2WP-16	1/2"	9,807	7.5	General
2WP-20	5/8"	11,182	10.8	General

BENEFITS & FEATURES

- Built to Withstand Rugged Outdoor Conditions
- All Ropes Quality and Strength Tested
- Guaranteed Excellent Performance
- Low Stretch
- Excellent Grip Feature

Static Kernmantle Rappelling Rope

Pelican Rope's static kernmantle features a tough, chemical resistant polyester cover over a non-rotational, parallel nylon core; making it ideal for rappelling and safety/rescue operations.

Static kernmantle allows little stretch while the nylon core provides energy absorption. Its firm braid is flexible enough to be tied and passed over pulleys and sheaves with ease. Steam setting eliminates cover over core slippage. The core fibers provide and maintain the tensile strength while the sheath protects the core from abrasion.

UL Certified to NFPA 1983-2012 edition standards and Vertical Lifeline components per ANSI Z359.1-2007. Rope includes waterproof ID tape.

Ideal for:

- Rappelling
- Fall protection
- Safety/rescue operations

NFPA & ANSI certified sewn eyes available on request (see page 41 for more information).
