

EASY MOVE™ POSITIONING LANYARD

Our Easy Move™ Positioning Lanyard is constructed from your choice of 1/2" Arborist-16™ or 7/16" Static Master™ rope as well as a variety of end options. It features a Kong® rope grab that offers an ergonomically large thumb rest for precise control. This positioning lanyard also includes the Chafe Master™ tubular sleeve which extends the life of the rope. The lanyard comes in several lengths and termination options to accommodate a variety of applications.

- Abrasion Resistant
- Versatile
- Tough & Durable
- Light-Weight From 1.95 Pounds

1/2" Arborist-16 rope w/ steel ANSI certified hook shown.
